

The German Research Society (DFG) and the State Foundation for Basic Research (DFFD) are announcing a continuous competition for joint fundamental research projects in the following areas of knowledge:

- mathematics, mechanics, computer science;
- physics and astronomy;
- chemistry;
- biology and medical science;
- Earth sciences and environmental problems;
- sciences of man and society;
- scientific bases of perspective technologies.

Requests for competition are accepted during the year without limiting the deadline for their submission. Before submitting the request, the Ukrainian and German leaders of the joint project agree on the research topics, the name of the project, the distribution of scientific tasks to be performed by each party, as well as the work schedule.

The organization to be funded can only be the organization where the project will be implemented, or the organization where the manager mainly works.

Once agreed, the German project manager sends his request to the DFG. The German project manager informs the project manager from the Ukrainian side about the results of consideration of his request. In case of a positive decision of the DFG, the Ukrainian project manager sends his request to the DFFD.

The duration of the joint project is 1 or 2 years and must coincide with the duration specified in the request of the German project manager.

With all questions on competition it is possible to address to the curator - Iryna Velychko by phone: (044) 246 39 27.

Duration: 1-2 years
