

# Internship programme for students from the International Federation of Medical Student Associations

International Federation of Medical Students Associations (IFMSA) was founded in 1951. It is the oldest and largest in the world an independent organization representing medical student associations at international level. IFMSA is recognized as a non-governmental organization within systems of the United Nations and the World Health Organization, and collaborates with the World Medical Association.

The All-Ukrainian Youth Association of Medical Students is a public organization. The concept of the association is active cooperation with the International Federation of Medical Students. The purpose of the Association is to protect the medical students interests and promoting the effective realization of medical specialists future opportunities in modern conditions through the implementation of cultural, environmental, health, sports, scientific and educational activities.

## The tasks of the Association are:

- Joining and coordinating the efforts of medical students to promote social prestige of the profession of doctor, medical and pharmaceutical employee in Ukraine;
- Assistance to medical students and young doctors in acquiring practical experience and theoretical medical knowledge in different countries;
- Cooperation with world medical organizations;
- Development of the idea of humanity and medical ethics;
- Development of the idea of a healthy lifestyle;
- Development of student science.
